COAL SITUATION IN GRIMSBY

Grimsby, Ont., Nov. 24, 1917
To the Editor of the "Independent,"
Grimsby, Ont.

Dear Sir:
As Secretary of the "Organization of Resources," Grimsby District, I would beg a little space of you to show the efforts made (unfortunately without results) to obtain coal. At the present time the people are sadly in need of fuel and at an emergency meeting called by the Reeve, Mr. Chas. T. Farrell, on Friday evening last, to deal with the question the following resolution was passed:

Moved by Councillor Marsh, seconded by Councillor Hume and carried unanimously: "That this Council think that as every effort has been put forth by the Reeve and Clerk to induce the Fuel Controller of Ontario to help out the coal situation in Grimsby but up to the present nothing has been done but a lot of correspondence and it is now the wish of this Council that the Reeve and Clerk get in immediate communication with the proper authorities at Ottawa and urge them to assist all in the power to relieve the most serious shortage of fuel in Grimsby."

The following is a copy of the correspondence which has taken place. On the 16th, of October I wrote the Fuel Controller of Ontario regarding situation and received the following reply.

Toronto, Ont., Oct. 18, 1917
Subject: Fuel situation in Grimsby.
C. H. Bromley,
Grimsby, Ont.

Dear Sir:
I beg to acknowledge yours of the 16th, inst., addressed to the Secretary of Fuel Controllers Department with reference to the fuel situation in your town. At present Mr. McGrath, Fuel Controller for Canada, is going into the question of equitable distribution, and there is a hope that an early date satisfactory arrangement will be made to this end. In the meantime I am having my Chief Assistant endeavour to do something for you and shall write you further in the course of a day or two.

Yours truly,
(Signed) R. C. Harris,
Honorary Fuel Controller for Ontario.

This was followed by a letter dated October 22nd, 1917.
Office of Fuel Controller for Canada.
Toronto, Ont., Oct. 22, 1917
Mr. C. H. Bromley,
Grimsby, Ont.

Dear Sir:
In further reply to yours of the 16th, inst., we have examined the reports for your town as submitted by Mr. J. H. Gibson and Messrs. J. W. Eaton & Son, and find that the requirements for the year up to and ending March 31, 1918, are 4774 tons net.
Up to and including October 18, 1917 tons have been delivered, leaving a balance of 2798 tons. Upon "phoning" Mr. Gibson, he advised us that he had orders placed with "The Lehigh Valley Coal & Navigation Co." for one car of nut and one car of stove coal, respectively per week since July 1st, last and that of those but five cars had been received to date. He further stated that your schools, churches and post office are entirely out of coal.

I am today taking the matter up with our United States representative Mr. McCue, and requesting him to secure an order from Fuel Commissioner Garfield at Washington directed to the Lehigh Valley Coal and Navigation Co., to the effect that they immediately ship part of the orders referred to. I trust this will secure early relief and if there be anything else I can do to assist you in relieving the situation I shall be very glad.

Please keep me advised of the situation.
Yours truly,
(Signed) R. C. Harris,
Hon. Fuel Controller for Ontario.

In reply to this the following was sent.
Mr. Harris,
Toronto, Ont.

"Subject: Fuel situation in Grimsby."
Dear Sir:
Thanks for your letter of 18th. inst. We would be glad if your Chief Assistant could take this matter up immediately, our situation is serious, only enough coal at schools for about six days, Water Works for about twelve days, Municipal Offices and Works for about twelve days, Library for about six days. Store practically none. Private houses practically none, others overloaded.
Yours faithfully,
(Signed) C. H. Bromley,
O. R. C.

This brought forth the reply as below.

MARGUERITE CLARK IN THE VALENTINE GIRL

St. Valentine's Day, long a rival of Christmas and the Fourth of July in young minds, comes again into prominence in the fourth-coming Famous Players picture "The Valentine Girl" starring Marguerite Clark, heralded far and near as "the sweetest girl in motion pictures" on the Paramount programme at Moore's Theatre Saturday, December 1st, "St. Valentine's" was an old Italian saint and although it is not known exactly how he originated the custom, it is certain that since the time of his life—many centuries ago—until the end of the 19th century, the custom of sending "valentines" or love tokens, steadily persisted. Even today in many parts of the country the younger generation observes the quaint and pretty ceremony. Saturday, December 1st.

Had Terrible Pains in Kidneys and Back.

Dear Mr. Editor—I want to write you about "Annie." I was very sick, could hardly get up; I was in bed most of the time. I had terrible pains in my kidneys and back, so much so that I had to scream sometimes when I was sitting down and wanted to get up. The pain was so great. I had tried a well-known kidney medicine but it didn't help me. I heard of Dr. Pierce's Ankle Tablets so I thought I would try them. I took only one box of the Tablets, and my back is now free from pain and I can work and take care of my family. I feel I cannot say enough for this medicine. Sincerely, Mrs. Wm. KELLER.

Note: This "Annie" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, constipation of the bowels, indigestion and urinary troubles. The physicians and specialists at Dr. Pierce's Great Institution, at Buffalo, N. Y., have thoroughly tested this prescription and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys. Patients having once used "Annie" at Dr. Pierce's Invaluable Hotel, have repeatedly sent back for more. Such a demand has been created that Dr. Pierce has decided to put "Annie" in the drug stores of this country, in a ready-to-use form. If not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

Dr. Pierce's Golden Medical Discovery is a blood cleanser and alternative that starts the liver and stomach into vigorous action. It cleans the body to make rich, red blood, which feeds the heart, nerves, brain and organs of the body. You feel clean, strong and strenuous.

PROTECTION OF FRUIT TREES FROM MICE

(Experimental Farms Note)
The annual loss of fruit trees in Canada from mice is very great. Some years they are much more destructive than in others, while in a certain year they may be very destructive in one part of Canada and do little or no damage in another. The scarcity or abundance of food, the number of mice which are in the vicinity when winter sets in, and the character of the winter, all have an influence on the amount of injury which is done. Where the orchard is in sand or where there is rubbish about in which mice can harbour, the injury to trees, if unprotected, is liable to be much greater than where the orchard has been under clean cultivation or even where a cover crop is sown the previous summer.

It frequently happens that orchards which have escaped much injury from mice for several years from the time of planting, will be badly injured, if not ruined, just when the first crop is expected. There is nothing more discouraging to a farmer or fruit grower than to have an orchard destroyed in this way after he has cared for it for a number of years, and there must be many instances in Canada where farmers, after a loss of this kind, do not re-plant.

Although it is not every year that mice are troublesome, trees should be protected from them every year until about six inches in diameter and even a tree of this size will sometimes be partly girdled. If the protection is neglected for one year, that may be the year when mice are very abundant and much injury will be done. The mice usually are looking for, or feeding on, seeds close to the ground under the snow and when they come to a tree they are likely to begin to gnaw the bark if it is unprotected,

and before they have finished the tree may be completely girdled to a height of eight or ten inches above the ground, which usually causes its death, although it may remain alive for most of the summer following.

The cheapest and surest method of protecting fruit trees from mice is to wrap ordinary white paper around the trunk of the tree, or the length cut into strips which roll of paper, of the width of the strips should be the size of the trunk to lap over, as by just wide as paper in all that is one thickness of paper. A wrapped tree is protected from mice. The tree and the trunk are wrapped twice. A little earth two places with the base after the tree is wrapped up about the trunk. Several thousand young trees at the Experimental Farm in this way and there have been no cases where the mice have gnawed through where the paper is at the tree. The paper is also of use in that it is well known that a building paper will do as well, to two inches in height from the base of the tree will often about the trunk from gnawing the trunk and even snow tramped about the tree has proved quite effective but one cannot always depend upon it. Fine wire mesh wrapped around the tree of the trunk, will expand with the growth of the tree, while more expensive at first, is very durable and will protect the trees well.

Mice may be poisoned by making a mixture of one part by weight of arsenic with three parts of cornmeal and putting it in runways made by gnawing two pieces of board each five or six feet in length and six inches wide to make an inverted trough, and putting about a tablespoonful of the poison on a shingle near the middle of the run, and the poison from the time to time. Poisoning would, however, be a rather tedious method for a large orchard.

ANTHRACNOSE, A DESTRUCTIVE DISEASE OF BEANS AND PEAS.

(Experimental Farms Note)
Among the diseases of the garden bean and pea, anthracnose or pod spot is the most destructive.

The disease disfigures the pods by dark brown spots, but also occurs on the leaves and stems of these plants, where, however, the symptoms of disease are less conspicuous.

The disease is caused by the fungus, *Colletotrichum fabae* and *Colletotrichum fabae* in the pod.

Once the disease becomes noticed in the crop, there is no practical method of preventing its spread.

These anthracnose diseases are conveyed to a crop by the use of infected seed. Infected seed and pods are found among practically all seed merchants' stock. On the seed, the disease manifests itself by more or less prominent, brownish discolorations, very noticeable on the white-seeded varieties. When very prominent, the affected seeds may easily be separated from sound ones by hand picking; this will reduce the disease to some extent, but will not control it completely, since it is very difficult to detect those infected seeds which show very little discoloration, and some seeds which are sufficiently infected to propagate the disease, will always find their way into the soil.

It is best to grow one's own seed supply. When the crop is entirely free from the disease it is an easy matter to gather disease-free seed, but when the disease is present, care must be taken to collect for seed only such pods as are perfectly sound. These pods should be picked off and stored in cotton (flour) bags away from any infected material. The disease, notwithstanding these precautions, may become prevalent again in the succeeding year and it is, therefore, necessary to watch the crop from the day the first seedlings appear above ground. The diseased plants generally show seed leaves either brownish-streaked, or of a very distinct pale yellow colour; when the latter is the case, the disease generally is present on the stem. When these signs are noticed prompt action is necessary. Each diseased or sickly-looking plant should be pulled up, root and all, and be deposited in a paper bag, not thrown on the ground among the other plants. The bag which has pulled up the diseased plant should then be dipped into a pail containing a 3 per cent solution of formalin to cleanse it from adhering spores. This will prevent the infection from spreading to any sound plant touched after pulling up a diseased one. When all plants have been collected in the paper bag, burn it, contents and all.

In this manner, a small plot may be kept quite free from disease and will produce a fine stock of sound seed. It is preferable to have such seed plot some good distance away from one's ordinary bean or pea plot.

Three weeks ago Monday Mr. McLaren was removed to the General and Marine Hospital, where his right leg was amputated above the knee because gangrene had set in. The operation, which was performed by the Doctors Greenwood, was successful and the patient recovered sufficiently to be removed to his home, 1100 York St., on Monday. He was looking forward to again spending the winter and at 7 o'clock in the morning was feeling in good spirits. Shortly after, however, he passed away, his heart collapsing.

Public Activity.
Mr. McLaren was one of the founders of the first street railway company, a horse line between this city and Thorold in this company he was associated with the late Dr. O'Brien. Later he was the moving spirit in a company to establish an electric line between this city and Southville, and was made president of the company.

The deceased was one of the best friends of the General and Marine Hospital, and president of the Hospital Board for many years. He was also a public school trustee, chairman of the board, president of the Board of Trade and otherwise actively engaged in work concerning the welfare of the public.

The deceased is survived by one brother, Alex. two sisters, Margaret and Catherine, both at the family home on York street, and two daughters, Lady Hutton of Leeds, England, and Mrs. R. W. Carr, formerly of Toronto, and now of Leeds, England. Mrs. Carr's husband left for overseas about a year ago, and he was followed by his wife, who is now engaged in comforting wounded soldiers in the various hospitals. Capt. Carr is a training officer at Shorncliffe, attached to the 5th Canadian Reserve Battalion.

Funeral services will be held at 2 o'clock on Monday, Nov. 26, at the residence of the family, 1100 York St., and will be conducted by Rev. J. H. McLeod.

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the change of life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedy to all my friends."—Mrs. LENA WYNN, 2312 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Such warning symptoms are a sure sign of suffocation, hot flashes, headache, backache, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and ineptitude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

When Kitty Gordon appears at Moore's Theatre on Monday, November 26th, in "Forget-Me-Not" the people of this town will have the opportunity of seeing one of those rarely beautiful and fascinating attractions that are talked of for months to come. Miss Gordon is seen in all the effulgence of her remarkable beauty in this production. And her beauty has been provided with a beautiful setting in this picture. Quite a number of the scenes were taken in Cuba, the company making the trip to that country especially for the purpose of taking this film and there were "locations" of grandeur and exquisite beauty were found.

The drama of "Forget-Me-Not" is the fascinating story of the rise of a poor Corsican peasant girl into a social leader, the keeper of a fashionable gambling house and the hated intruder into the family into which her son has married. The role is played by Miss Gordon and it gives her splendid opportunities for the display of her dramatic attainments. It is the most dramatic and satisfying production in which Miss Gordon has yet appeared.

If all means see this feature. It is crowded with incidents, it produces a sumptuous and lavish scale, it is thoroughly consistent and is smart and tremendously entertaining. It is a picture that will make any woman glad to be in attendance at the showing of a picture.

A very interesting and important matter. The coal situation in Grimsby. It will be relieved soon.

W. F. W. has a long correspondence with the Fuel Controller, Mr. C. H. Brown, acting for the Village Council, has secured a shipment of one carload of coal which is expected here at once. It is proposed by the council to divide this coal amongst as many people as possible. The probability is that not over half a ton will be given to any one household.

Katon & Son expect a carload of coal from Toronto in a day or two and J. H. Gibson is doing everything in his power to get coal forward.

CLAUDE CROWN

A very pleasant event took place at the personage at Princeton, on Wednesday, at high noon, Nov. 16th, when Miss Ella Grace Crown, third daughter of Mr. and Mrs. W. H. Crown, formerly of Rosedale, was united in the holy bonds of matrimony to Mr. Donald H. Claus, third son of Mrs. W. M. Claus of Vineland, by the Rev. H. Monsinger, uncle of the groom. The bride's traveling suit was of navy blue broadcloth with large white picture hat and natural racoon fur. After a brief honeymoon they will reside at Vineland on the bridegroom's farm—Drumville Express.

Facts and Fancies

By Frank Fairbairn

One thing that pleased me very much was the fact that the premier, Sir Robert L. Borden, named T. J. Stewart as the Union Government candidate in West Hamilton.

If ever any man was the victim of mean, underhand, treacherous work T. J. Stewart was that man.

Long before the election date was announced the editor of the Spectator went to Ottawa to knife Mr. Stewart and from that day till a week ago the paper kept up a constant string of telegrams poisoning Premier Borden to cut T. J. Stewart's head off.

Of course the editor of the Spectator was only a tool in the hands of the men higher up who were determined to kill Stewart politically if possible. It is a lamentable thing when the editor of a great newspaper lends himself to such miserable tactics.

The Spectator had nothing against T. J. Stewart politically as T. J. is a good Conservative and the Spectator is supposedly a good Conservative, but unfortunately T. J. Stewart was a Hydro man while the Spectator is a Catholic organ, consequently it was not a game of politics that the Spectator was playing. It was a game of hate.

For Sale—Now is the time to buy bush land. I have two acres of timber, that will reproduce itself in a few years, for sale, within 2 chains of Main St., a few cherry trees and a good building site on same; free road to street. D. Jackson, GRIMSBY.

OPENING ANNOUNCEMENT

FOR SATURDAY, DEC. 1st

Swayze & Brown, Successors to S. E. Mabey

To the Citizens of Grimsby and District:

We beg to intimate that we have acquired the BUTCHER BUSINESS so long carried on by Mr. S. E. Mabey.

We hope by keeping only first quality goods and selling them at reasonable prices to merit a share of public patronage.

Our assistants have instructions to politely but firmly refuse to give credit. Should any of our customers desire this convenience we will gladly arrange it, but application must be made at the office. We have adopted this plan in the interests of our customers to reduce the cost of food and hope the public will co-operate with us.

Delivery wagons will leave our store every day at 9.30 a. m. going East and at 10.30 a. m. going West. Extra deliveries on Saturdays.

We purpose keeping a full line of everything to be found in a first class butchers store, including Fresh, Salt and Cured Meats, Bacon, Ham, Sausages, Lard, Vegetables, Poultry, Eggs and Butter.

Store Will be Opened on Saturday, Dec. 1st.

BRING YOUR PAPER FOR RED CROSS

The Red Cross is now prepared to take care of all paper, rags and old rubbers at THE INDEPENDENT Office.

Bring in or send all you have now and if people who cannot do so will phone Mr. J. A. Livingston, phone No. 26, the Boy Scouts will call for paper.

The ladies of the Red Cross believe that every person in this district can well afford to give them all of their waste material, instead of practically giving it to the junk dealers from the cities.

Remember that every cent the Red Cross gets given comfort and care to the wounded soldiers.

The Red Cross makes this appeal not only to the people of GRIMSBY village, but to the people of the whole district, and also ask the co-operation of all school teachers, by asking their pupils that when it is not possible to send their paper, rags and rubbers from their homes direct to THE INDEPENDENT Office, to bring them to school with them and when a quantity has been thus collected, request someone to bring them to on their day.

Newspapers—Lay flat and fold and tie in bundles.

Rags—Put in bags or tie up in bundles.

Old Rubbers—Tie up in bundles.

Magazines—Tie up in bundles.

Old Books—Tie up in bundles.

Waste Paper—Put in bags or pack in paper boxes.

Stores, shops and factories are requested to bring all the clean waste paper which they are now burning or drawing to the rubbish pile, to THE INDEPENDENT Office, asking for directions where to unload it.

All paper cartons can be used to good advantage for packing magazines and old rubbers in. We also require old boxes and sacks for packing rags and rubbers in.

Paper must not be thrown loosely into the building. To avoid cost in shipping it must be tied up in bundles or put into bags.

Ask for key at INDEPENDENT Office.

MR. J. E. LAWSON WILL HOLD AN AUCTION SALE

Mr. J. E. Lawson, North GRIMSBY, has rented his grain farm for a term of years and will hold an auction sale at his home residence on the Ridge Road, near the top of the GRIMSBY Mountain Road, on Thursday, December 13th, commencing at one o'clock, when he will offer a long list of horses, cattle, vehicles, implements and other farm articles. Two months' credit. Jas. A. Livingston, auctioneer.

ARTHUR GRIESBACH GAINED AND WONDED ON HIS SECOND TRIP OVERSEAS.

Jas. A. Livingston, of the GRIMSBY INDEPENDENT, received word that his nephew, Arthur Griesbach, has been wounded and gained at Flanders, Flanders.

Arthur Griesbach, of Collingwood, is the son of Mr. Livingston's youngest sister and he enlisted in August, 1914, although only seventeen at that time and went overseas with his cousin, Lieut. Arthur Livingston. When the first contingent was sent to France in January, 1915, Arthur Griesbach went along, while his cousin, Arthur Livingston, went to the coast of England to train troops. Young Griesbach went through the battle of Langemarck and St. Julien and was badly wounded and gained. A few days he was taken to England and from there sent over to Canada and was discharged and now home.

In the early part of 1916, about a year after he was wounded, he was sufficiently recovered so that he commenced collecting again, which he eventually did with the 157th Battalion, although there were times when he would fall down while marching on account of heart trouble which had been produced by the poisonous gases which he inhaled in the trenches. Later on, however, he became sufficiently strong to stand his training and in due time went overseas with the 157th Battalion. He has been in Flanders a long time and last week he was wounded and gained and is now in hospital.

When he went overseas he, of course, lost his right to a pension for his first campaign, but if he lives to return he will of course be pensioned for his second campaign.

SALE OF FURNISHED HOUSEHOLDS

The Niagara Peninsula Brokers Association are holding a sale of Furnished Households at Welland on December 11th. This sale offers some 50 real good broody animals of the

light kind. The following are some of the exhibitors: Oliver, Cabana, Jr., Pine Grove Farms, Elma Centre, New York State; Oliver Robins, Wellandport; W. C. Jonek, Chippawa; Dr. P. G. Hutton, Welland; McLeod Bros., Stamford; Dell Hagar, Welland; Ridley College, Catharines; James Dyer, St. Catharines; Warren Stringer, Dunnville; P. G. Moots, Dunnville; John Moore, Dunnville; C. H. Claus & Son, St. Catharines. Dealers and dairymen will do well to keep this date in mind and make a point to be at this sale as the demand for this class of livestock is very brisk.

MRS. STARR ACKNOWLEDGES TEA ROOM CHECK FOR \$100.00

Toronto, Nov. 6, 1917

Mrs. Pettit, Grimsby.

Dear Mrs. Pettit—Your most welcome and timely cheque for \$100.00 was most gratefully received.

The ladies of Grimsby who are interested in the tea room have our deepest thanks for their splendid contribution to this needed work for the brave soldiers. We think you are all deserving of the highest praise. Please accept both the praise and thanks of the University Hospital Supply Association. Will you please tell the ladies who have worked so hard and well that No. 4 Hospital University of Toronto has reached England from Toronto and is now settled at Banbridge where they are to take charge of 2000 beds. Our efforts must continue as strenuously as ever for the needs are now and are great. I hope your ladies saw the account of our second annual meeting in the papers and trust that any of your members who are in Toronto will come to our work room, the Library Building (U. of T.) on Monday, Wednesday or Friday from 10 to 4 o'clock where they can see the work for them selves.

Again extending the grateful thanks of the association for the splendid donation received.

Sincerely yours,

Anne C. M. Starr.

CHRISTMAS SALE OF WORK

On Wednesday, Dec. 5th, the Guild of St. Andrew's Church, GRIMSBY, will hold the Annual Christmas Sale of fancy and useful articles—aprons, etc.

A special feature of the Sale will be the table of home made bread, tea, cakes, rolls, cooked meats, candy, etc. The Boys Club are making carved wood tea-pot stands, frames, etc. The Sale will be held in the Parish Hall, beginning at 3 p.m. Afternoon tea will be served from 4 to 5 p.m. A musical programme will be given.

A WONDERFUL NEWSPAPER

The Family Herald and Weekly Star, of Montreal, is a most unique paper and very popular in every home in Canada. It is surprising what great value to the reader is contained in every issue. For homes out here, and they are the majority, it is not having it. The subscription price is \$1.35 a year, and includes a colored war map of the fighting area in Europe. It is a splendid map and of great assistance to understand the war. We understand the map offer is shortly to be withdrawn. The year's subscription and war map are certainly big value at \$1.35.

TWO LONG YEARS HE SUFFERED

"Fruit-a-lives" Made Him Feel As If Walking On Air

OMAHA, Oct. 20th, 1914.
"For over two years, I was troubled with Constipation, Depression, Lack of Appetite and Headaches. One day I saw your sign which read 'Fruit-a-lives' make you feel like walking on air.' This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. I have a good appetite, relief everything I eat, and the Headaches are gone entirely. I recommend this pleasant fruit medicine to all my friends."

DAN McLEAN.

GLASSES once the sign of old age, are now the sign of good sense.

In the days of old style double vision lenses, older people hesitated to wear glasses because of the highly conspicuous lines.

Today, everybody advises our level double vision lenses, that look like a single pair of glasses, because of the purpose of two.

We invite you to call, it's our pleasure to show them.

Synopsis of Canadian Northwest Land Regulations

The sole need of a family, or any male over 18, or an old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 20 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

Live stock may be substituted for cultivation under certain conditions. In certain districts a homesteader to go standing may pre-empt a quarter section also his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent, also 20 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre.

Duties—Must reside six months in each of three years cultivate 20 acres and erect a house worth \$300.

Regret have nothing absolutely definite as yet but fully expect one or more cars to reach Grimsby by week end.

R. C. Harris.

Further appeal.
November 17, 1917
Mr. R. C. Harris,
Toronto, Ont.

Regret to inform you that nothing has been done in any shape to better fuel conditions in Grimsby. Can you do anything for us or do you think we could use any other method than we have used? Dealers cannot obtain coal.

Bromley.

In reply.
November 19, 1917, Toronto.
Mr. C. H. Bromley,
Grimsby, Ont.

Your wire seventeenth received. Lehigh Valley Sales Co. shows shipment to Gibson April first to October 31st, thirteen hundred tons against thirteen ninety-four in 1916. Cannot reconcile this statement with conditions reported by you and Gibson.
R. C. Harris.

In reply.
Grimsby, Nov. 29, 1917
Mr. R. C. Harris,
Toronto, Ont.

Your wire to hand note information but regardless of same there are a great many families here that have no coal and figures will not get them any. It is coal they need. Can you do anything to help the situation. If you can it will be appreciated.
Chas. T. Farrell, Reeve.
Bromley, O. R. C.

In reply.
Toronto, Nov. 30, 1917
Mr. C. H. Bromley,
Grimsby, Ont.

Replying your wire even date. Please advise what disposition Gibson made of shipments to him. Is he holding large stock or has improper distributed coal. Kindly help us if you can.
R. C. Harris.

Reply.
Grimsby, Nov. 31, 1917
Mr. R. C. Harris,
Toronto, Ont.

Gibson holds no stock in hand at all. Do not believe he has improperly distributed coal. Kindly help us if you can.
Bromley.

No reply, so far further wire was sent.
Grimsby, Nov. 23, 1917
Mr. R. C. Harris,
Fuel Controller,
Toronto, Ont.

Coal is altogether lacking here. People are suffering from cold. Can you help us, if not am applying to Ottawa on Monday.

THE KASER AND GOTT ARE BARTNERS

Gott, Gott, dear Gott, attention please Your partner Wilhelm's here And has a word or two to say Into your private ear.

So down away all soldiers now And listen well to me. For what I say concerns us much Himself and Sherman.

You know dear Gott, I was your friend

And from mine hour of birth I quietly let you rule de Heffen Vile I ruled o'er the earth, And when I told mein soldiers Of bygone battle days I gladly split the glory

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

And have you half de brains.

In every way I tried to prove Mine heart to you was true And only claimed mein honest share In great deeds that you do. You could not have a better friend In sky, on land or sea. Dan Kaiser Wilhelm number two De Lord of Sherman.

So what I say, dear Gott, is this, Dat we should still be friends Dat you should help to send my foes Unto een bitter end. If you, dear Gott, vpl die me do For meedings else I'll pray Unto you and I will partners be Forever and amen.

NEW WINNIPEG TRAINS

Travel between Eastern and Western Canada is always heavy in the winter months, particularly during December with its holiday season. To meet the requirements of the public, therefore, a special daily service between Toronto and Winnipeg is announced by the Canadian Northern Railway: Westbound, Dec. 3rd to Jan. 2, 1918 only; Eastbound, Dec. 1st to Jan. 24th, 1918 only. Thereafter regular tri-weekly service will be resumed. A through touring sleeping car will also be operated daily between Toronto and Calgary on part of the above special service and connection will be made with regular daily trains between Winnipeg and Edmonton. Service between Toronto and Vancouver remains tri-weekly as at present, leaving Toronto Mondays, Wednesdays and Fridays. For further particulars see local time table folders or apply to Town Agent, W. R. Calder.

PIGS MAKE FAST GAINS WHEN GIVEN OILMEAL

Linseed oilmeal is sometimes used as a supplement to corn in hog feeding, and when tankage or skim milk cannot be obtained at a reasonable price this feed may become the cheapest carrier of protein. Tankage at \$36 a ton proved cheaper than oilmeal at \$45 when fed with corn worth \$1.68 a bushel in tests conducted at the Ohio Experiment Station.

Five pigs, weighing 141 pounds, were fed 12 weeks on corn alone; another lot, one part of tankage with nine parts of corn; and a third lot, one part of linseed oilmeal to five parts of corn. Those fed only corn gained 14 pounds daily; those given corn and tankage, 2 pounds; and those supplied corn and oilmeal, 1 1/2 pounds.

The margin over the cost of the feed made by the pigs fed oilmeal with corn was \$19.64, when hogs sold for \$15 a hundred; of those fed tankage and corn, \$22.72; and of those given only corn, \$18.62.

Younger pigs would make much slower gains than those obtained in this experiment if corn alone is fed. Even for long feeding periods with well-developed hogs, corn is more profitable when supplemented with a small quantity of a feed rich in protein and mineral matter. Young pigs weighing 45 pounds gained only a third of a pound daily in one test when fed for 15 weeks on corn alone.

MANURE AND LIME RAISE WHEAT YIELD

Eight tons of manure on land lined once in a five-year rotation with two tons of finely ground limestone has produced 23 bushels of wheat per acre at the Ohio Experiment Station, while untreated land has yielded only 12 bushels as a 15-year average. Clover and timothy hay followed the wheat on manured and limed land have yielded three tons per acre more than that harvested from untreated land. This hay at \$10 a ton has more than paid all cost of producing the wheat. If manure costs only the expense of hauling and spreading on the field. The systematic manuring and liming have been paid for in other crops of the rotation, leaving the increase in wheat yield as clear gain.

COL. MAXE'S TRIBUTE TO WATER

Having printed Bob Ingersoll's tribute to whiskey, and his friend's reply, we may as well let you have Col. Maxe's tribute to water. Col. Bob was at the annual meeting of the bar association of North Arkansas and some of his friends thought it would be a merry jest to propose that he respond to the toast "Water." But the Colonel was equal to the occasion. Said he:

"Mr. Toastmaster, ladies and gentlemen, you have asked me to respond to the toast 'Water,' the purest and best of all things ever created. I want to say to you that I have seen it glisten in tiny tear drops on the sleeping lids of infancy; I have seen it trickle down the blushing cheeks of youth, and go in rushing torrents down the wrinkled cheeks of age. I have seen it in the dew-drops on the blades of grass and leaves of trees, gushing like polished diamonds when the morning sun burst in resplendent glory over the eastern hills. I have seen it trickle down the mountain sides in 'ray rivulets' with the music of liquid silver striking on beds of polished diamonds. I have seen it in the 'ashing river rippling over pebbly bottoms, parting about jutting mones, roaring over precipitous falls in its mad rush to join the father of waters; and in the mighty father of waters I have seen it go in slow and majestic sweep to join the ocean. And I have seen it in the mighty ocean on whose broad bosom float the battle fleets of all nations and the commerce of the world, but, ladies and gentlemen, I want to say to you now, that as a beverage it is a miserable failure."

TEN MILLION YEARS AGO IN CANADA

(1) Prof. Walcott discoverer of the Fossil Foot at Field, B.C.
(2) Climbing into the undiscovered past.

PROF. CHARLES D. WALCOTT, of the Smithsonian Institute, has discovered a deposit of extremely valuable fossils of early marine life in Mount Field, overlooking Emerald Lake Chalet and the beautiful Yoho Valley in the Canadian Rockies. Far up over Burgess Pass, at an altitude of nine thousand feet, where the tourists in the fashionable summer hotels and camps can barely hear the boom of the waves as he carried down to the fossil bearing shore, the Professor has been securing some wonderful specimens of sea life of over ten million years ago. These are of the period when life was just emerging from the jelly-fish stage into an era where a bony structure was becoming apparent. They were deposited in the mud of the green bottom that has since hardened into rock, and been raised to the surface by geological forces.

PUBLIC BROKER'S SALE Ends Saturday, Dec. 1st

Dec. 1st will be the last, and probably the biggest day of great sale. Nearly everyone in the whole community has been here and carried away a bundle of the special Broker's values. Now for a last day of bargain giving such as the people have never before experienced. Everything goes. Nothing will be reserved. If there are still some articles of winter clothing that you require, get them now while there is no regard for prices. These goods were purchased some time ago and prices have advanced more than once since then.

The wholesales take stock Nov. 30th. They tell us that all prices will be advanced Dec. 1st. What's the odds, we have the goods and pass them on to you at the old prices, less a discount. Let the future take care of itself.

THURSDAY and FRIDAY, you will receive better attention, but if you can't make it before Saturday, come then. There will be plenty of others, so you won't be lonesome.

Therefore Roberts and Anna King in the Jesse L. Lasky production of "Aton the Terrible," written by Jules Eckert Goodman from the Saturday Evening Post story by Thomas H. Ince, and prepared for the screen by Marian Fairfax and Charles Harter, will be the attraction at Moore's on Wednesday, December 14th.

This gripping story of political intrigue in connection with the second great European war was the cause of a great deal of comment when it appeared in the Saturday Evening Post. In preparing the story for the screen, Jules Eckert Goodman, the noted dramatist, has written an even more vivid story, in the masterly hands of America's greatest character actor, and the beautiful Anna King as the fair victim of his conspiracy, Edythe Chapman, and of such prominent artists as Horace H. Carpenter, Edythe Chapman, and Marion Ford and others, the photo is bound to be of more than usual interest.

The production, a Paramount Picture, is a rather one, the scenes being told in Russia. It was produced under the personal direction of William C. de Mille.

LINCOLN COUNTY COUNCIL IN SESSION

The November-December session of the County Council opened in the County Court House at 2 o'clock Monday afternoon with all members present. Warden Chas. referred to the fact that so far the day had not appointed their representative on the Northern Area Commission and that on the appointment could be made at once he suggested that the City

Council be reminded or that the County Council appeal to the Lieutenant Governor for action. The Council decided to remind the city authorities and left the matter in the hands of the Warden.

Councillor Gilmore presented a report of the Special Committee to investigate the needs of a County bridge over the 20 mile creek. The Committee concluded that the County was not responsible for the building of a bridge over the creek.

On motion of Councillors Fleming and Parrell the hours of the Council were changed to 10.25 a.m. to 12.25 p.m. and from 2 until 4 p.m.

This change was to allow the councillors from the west to go to their homes each evening and return to the morning.

The council then adjourned to visit to Children's Hospital, Tuesday morning they visited the Industrial Home and returned their session at 4 o'clock in the afternoon.

CAPT. E. J. LOVELACE ANNOUNCES THAT HE WILL SUPPORT CONSCRIPTION GOVERNMENT

The following cable has just been received by J. M. Egan from Capt. E. J. Lovelace in answer to a cable sent to him as supporter of the Liberal party in this country.

London, England, Nov. 26, 1917. Mr. C. J. Egan.

Convincing Home, England, Cable just received. Satisfactory supporting Conscription Government during the war. Taylor agent, France, Saturday, advice.

The cable sent to Capt. Lovelace was filed at the C. E. Office two weeks ago tomorrow and read in the effect that the Liberals of Lincoln had unanimously nominated him as an Independent Liberal. It satisfied

they he was asked to cable at once naming his agent. It was signed by Egan as president of the association.

Judging by the reply the cable must have gone to France and then back again reaching Capt. Lovelace at the Conscription Home in England. This explains the long delay. The cable also makes clear that Capt. Lovelace is a supporter of conscription and the government which is created to enforce it, which is the Union Government.

On receipt of the news today Mr. Egan personally notified all many

Liberals as he could reach so that they would be in a position to consider the matter at once.
